VOL. XXII.

STANFORD, KY., TUESDAY, JULY 10, 1894.

NO. 37

## CRAB ORCHARD.

The protracted meeting closed Friday night with one addition.

Mrs. Stormes, of Lancaster, who has been ill for so long at the home of Mr. Will Hutchings in Crab Orchard, died Friday night and was taken to Lancaster Saturday for burial.

The editor's visit to Crab Orchard Friday was so short that we heard one young lady say she thought it only a vision for he was out of sight before his presence in town was known.

Mr. D. J. Sheehan, of Wyoming, brought a car of horses from the West to Crab Orchard. After selling a few to our farmers through the country at prices ranging from \$25 to \$35, he drove the rest through to London, the latter part of the week; all who purchased here seem to be well pleased.

Mrs. Arnold, of Lancaster, Misses Mary Dudderdar and Mamie Moore, of Stanford, are boarding with Mrs. Stephens for a few weeks. Miss Ora Willmore and Mrs. Gaines Rice are visiting their mother, Mrs. F. W. Dillon. Miss Rucker, of Lancaster, is a guest of Mrs. D. G. Slaughter. Mrs. Dr. Pettus and Miss Maude returned from Livingston, Saturday, accompanied by Mrs. W. H. Dillon, who will spend a few days visiting her many friends in Crab Orchard. Miss Pearl Phillips, who will teach at the Holmes school-house this session, came up Friday and will make a visit among friends before opening her school. It is still a question of doubt as to who will teach the Crab Orchard school. Mr. Ed Melvin and wife, of London. Mr. Will Melvin, of Owenton, and Jack Melvin, of Lebanon Junction, spent the past week with their parents, Mr. and Mrs. John Melvin. Mrs. Dr. E. E. Estes, of McKinney, is with her parents, Mr. and Mrs. John Edmiston. Mr. Henkle McClure and wife returned to their home at McKinney, after spending the Fourth with his mother, Mrs. McClure. Mrs. Nannie Best is visiting her aunt, Mrs. Perry King. Mr. White, of Sonora, after making a visit through East Tennessee and Kentucky, stopped off at Crab Orchard to visit his brother, T. C. White, a few days before his return home.

## Happy Over a Famous Victory

At a meeting of the citizens of Middleburg and Yosemite, on the 31 of July, Dr. J. T. Wesley was made chairman; F. Grider, H. M. Shouse and P. H. Taylor were appointed a committee on resolutions.

While the committee was out, enthusiastic addresses were made by H. H. McIninch, Edgar Fogle and Galen Smith.

The committee brought in the following, which was unanimously adopted.

WHEREAS, The Legislature of Kentucky, under a constitutional provision enacted a statute guaranteeing to the counties and voting precincts in this Commonwealth the right to vote on what is known as local option, and

WHEREAS, Under said statute a recent election to decide whether intoxicating liquors should be sold in the North Liberty precinct of Cossey county, the good citizens of said precinct cast an overwhelming vote against the sale of liquors.

RESOLVED, That the citizens of Middleburg and Yosemite in mass-meeting assembled, do extend to the citizens of the North Liberty precinct our most hearty congratulations on their noble victory.

2. That we, considering their victory our victory also in the fight against this nefarious traffic, do most sincerely thank each and every voter, who on Monday last, cast his vote against the sale of intoxicating liquors.

3. That we especially recognize the noble services of Elder J. Q. Montgomery, Judge William Myers, Hon. George Stone and others, and congratulate them on their grand success.

4. That the foregoing preamble and resolutions be sent to our friends of the North Liberty precinct to be read in their meeting on the 4th inst., and that a copy be sent to the INTERIOR JOURNAL for publication.

F. Grider, H. M. Shouse and P. H. Taylor, committee.

LONDON.—Wm. Green was shot by Bob Cooper at the Colony the 4th of July and will die from his wounds. Cooper was shot twice but not badly hurt. Montgomery Jackson, son of Jas. Jackson, died and was buried at State Hill Sunday. Typhoid fever.

THOSE WHO ARE POSTED.—Will tell you that the finest and healthiest summer resorts in the northwest are summered along the Wisconsin Central Lines, among which are Lake Villa, Fox Lake, Antioch, Burlington, Mukwonago, Waukesha, Neenah, Waupaca, Menard, Ashland and Duluth. Tourists and pleasure seekers figuring on their next summer's vacation should bear this in mind and before selecting a route drop a line to Jas. C. Pond, General Passenger Agent of the Wisconsin Central Lines, at Milwaukee, Wis., and he will send you maps, time tables and guide books containing valuable information, which are mailed free upon application.

The E. T. V. & G. has been sold to the Southern Railroad Co., the reorganized Richmond & Danville, for \$1,500,000.

## WILLIAMSBURG, WHITLEY COUNTY.

Mr. Dudley Cole, of Virginia, spent a few days last week with his brother-in-law, Mr. H. C. King.

Arthur Hill has had the flux, but is improving. Harry, the little son of Mr. C. H. Keeton, has the fever.

The Whitley county fair will be held Sept. 6, 7 and 8. Those desiring catalogues should write to C. H. Keeton, see'y.

Mrs. C. Gatlin, who has been spending several months at Asheville, N. C. for her health, has returned very much improved.

Nelson & Freeman is the style of the new drug firm who bought E. M. Hugney out. Mr. Hugney is at his old home in Madison county.

The 4th passed off quietly in our county, so far as we have been able to learn. There were several picnics in various places, which were well attended.

The Whitley County S. S. Union Convention will be held here Thursday, July 19, and we would be glad to have S. S. workers from neighboring counties to meet with us.

Last Tuesday while Charley Durham, aged 5 years, was at the saw mill of the Jones Lumber Co., where he had gone to take his father his dinner, he was caught in one of the saws and almost instantly killed. His head was cut open and his body almost severed, besides being badly cut in several other places. His funeral took place at the Christian church Wednesday afternoon, Elder J. E. Terry preaching the sermon.

After an absence of several weeks partly on a visit and partly on account of sickness, I am back in Williamsburg once more and am glad I can send you another letter. If they are of any interest to any of your readers. During my short stay away I found that several changes have taken place, impressing me with the fact of the rapidity with which everything moves on. Death has entered our circle and taken two of our young people away, Miss Bettie Weissner and Mr. C. C. Lawson, both just on the beginning of useful lives. Business changes have also taken place and houses have been begun and old ones improved, until I was surprised at what a few weeks could bring about, but such is the lot of man.

Monday the democrat of Whitley county met in convention and nominated a ticket for the county offices, which is as follows: County judge, M. E. Mahan; county clerk, Simon S. Siler; sheriff, J. M. Mahan; county attorney, H. H. Tye; assessor, W. B. Lyons; jailer, J. L. Jones; coroner, G. M. Cooper; surveyor, G. W. Spronle. It would be impossible to secure a ticket of better men, and while this county is strongly republican, it will be necessary for them to put out a good ticket, or they will find the better class of people who have supported them in national elections voting for the man and not the political ticket.

## IN MEMORIAM.

On the morning of June 22d, Mrs. Laura McRoberts, of Eminence, Ky., departed this life. She was a Miss Markin and was born and reared at Iliontonville. In recent years her parents moved to Pleasantville, where they now live. Only a little over a year ago the writer solemnized the rites of matrimony between her and Mr. George McRoberts in the parlors of the Galt House, Louisville, since which time she has lived in her elegant home at Eminence. During the last few months she had been a great sufferer from that terrible disease, consumption. She bore her sufferings with patience and resignation. It was my pleasure not only to officiate at her wedding, but also to baptize her into the church and to talk with her during her last hours, of the life beyond. These hours were hours of peace and her end was painless. The gentle, amiable, sweet spirit, so young in years and so full of hope and promise, went up from its frail tenement to be at rest.

GEORGE GOWEN.

The corner stone of the \$100,000 exposition building at the Illinois State fair grounds at Springfield was laid last week with imposing ceremonies.

A horse kicked H. S. Shaler, of the Freeman House, N. Y., on the knee, which laid him up in bed, caused the knee to become stiff. A friend recommended him to Dr. Chamberlain's Pain Balm, which he did and in two days was able to be around. Mr. Shaler has recommended it to many others and says it is excellent for any kind of a bruise or sprain. The same remedy is also famous for its cures of rheumatism. For sale by Dr. S. G. Hocker, Druggist, Stanford.

—R. G. Warren, master commissioner, sold the John S. Hays knob land to Forester Reid, 40 acres at 80 cts. an acre.

—Some Mercer county farmers have turned their hogs into their best wheat fields, hoping to make more in that way than selling the grain at 45c.

—The stakes of the Stanford Fair close to-day and both will be well filled. Don't fail to see the good horses that will compete for these rich purses.

—A race between Ramapo, to run 11 miles, Directum to trot a mile and Sanger, the bicyclist to ride a mile has been proposed. It looks as if the runner would have the best end of it.

—The Columbia Fair will be held Aug. 21-24, with a liberal list of premiums and purses. Entries to races close Aug. 10. Secretary J. E. Murrell has our thanks for invitation and ticket.

—The rich Realization Stakes at Sheepshed Bay was won by Croker's colt Dobbin, who was the favorite. The World's Fair Stakes at Caledon, worth \$15,750, was won by Lissack, at 30 to 1.

—Yesterday's court was the dullest in years. Only a few people came to town and those that came did little or nothing. A few cattle, sheep and hogs were on market, but none were disposed of. A few plow horses changed hands at \$16 to \$20.

—Matt Cohen, of Richmond, who had entered his horses at the Springfield Fair, has decided to come here instead and writes to the secretary of our fair as follows: "Will be on hand with six good ones and will have an entry in each of your stakes."

—Squire J. S. Murphy says one of the best wheat crops for a long time has been harvested in this county, the yield being good, the grain large and the weight above the average. The corn crop was never better, the acreage and the condition being above the ordinary.

—John Farris has a couple of two-year old roan fillies that are the best matched in the State, perhaps. One is by Guardsman and the other by Alsatian, and they are both fast. Mr. Farris says they will be trotters before the season of 1894 closes.—Stock Farm.

—About 60 head of trotting stock were sold at sheriff's sale in Fayette, the total amount realized being less than \$1,200. The good young stallion Ruby Wilkes was among the number and brought \$200. The stock was sold for a feed bill, and originally belonged to Mrs. Samuel N. Smith, of Chicago.

—James P. Bailey, as special commissioner, sold a house and lot in Crab Orchard, at auction yesterday belonging to J. H. Carson, to W. A. Carson for \$296.01, to satisfy a debt of Arthur Pearce. ## HUSTONVILLE.

—Several from this place took the Juvenile examination. From all accounts they are getting more rigid each year.

—Born on the night of the 3d, to the wife of G. C. Riffe, a boy. The father never experienced a happier Fourth.

—Most farmers in this section are through cutting wheat. As a general thing it is very good quality. Next thing on docket, we hope, is maximum instead of minimum price.

—The "strike" has reached our town. The trouble soars no higher than the "African," consequently no uneasiness is felt. This class resolved several years ago to earn their livelihood playing quoits, base ball, etc., and success seems to be theirs.

—On Wednesday night at 11 o'clock the fire alarm was sounded. The barn of Mr. James Goode was soon discovered to be on fire. No stock consumed; several hundred bushels of oats, few barrels of corn were the extent of the loss. We are glad to know it was no greater. The heroic actions of those present saved the adjacent buildings from being razed to the ground.

—Mr. W. M. McAfee, who has been in the livery business at this place, has accepted a position to travel in Wisconsin. During his stay here he has made a host of friends, who loath to see him leave. Since he has fully resolved to make his exit, all we can do is to hope how well he may succeed. Mr. Sam Kennedy, of Richmond, was here Sunday to see one of our most accomplished young ladies.

This signs that the strike was weakening, when we last wrote of it, were not fulfilled, the temporizing manner in which the local authorities at Chicago dealt with the strikers giving them fresh courage to give their lawless bent full rein. Had Gov. Altgeld, the anarchist who disgraces the gubernatorial chair in Illinois, been half as anxious to put down lawlessness as he was to fire his balderdash at President Cleveland against the use of the Federal soldiers in the State, the troubled would have been nipped in the bud, perhaps a score of lives saved and millions of property kept from the incendiary's torch. It is all well enough to talk about State rights and to maintain them when necessary, but Altgeld's position was untenable and his assertions mendacious. The U. S. mails were being detained, the court's orders disregarded and it was high time that the president should thrust the strong arm of the military across the ruthless track of the strikers, who had resolved themselves into a mob, with murder and arson as their weapons and anarchy as their design.

The first blood was shed Friday, when eight rioters were shot while attempting to prevent the running of trains, by the U. S. marshals. They were repelled and then they began their cowardly warfare of incendiarism and destruction of property. Thousands of cars were burned, miles of track torn up, trains wrecked and immense quantities of merchandise destroyed, the loss amounting to millions. Two brigades of State troops were called out to restore order. The strikers attacked one company of them, when orders were given the men to fire and they did so with telling effect, killing a number and wounding many. There were only 35 soldiers, but they put 8,000 strikers to flight, showing that firmness and decision was all that was necessary to keep them in check. The Federal soldiers have so far refrained from shooting though jeered and taunted almost beyond endurance.

Since the above was written, the U. S. soldiers have tired and fired to kill on the frenzied mob of strikers. At Hammond, Ind., near Chicago, Sunday night, the strikers were overturning freight cars, firing Pullmans and doing other incendiary acts. They were ordered to desist, but refused, when 35 soldiers fired upon them and though they were 2,000 strong routed them, killing two and injuring several. The mob threatened to make another attack, but the soldiers were reinforced and discretion was thought the better part of valor. Gov. Matthews at once ordered 15 companies of State troops to the scene.

President Cleveland has practically declared martial law at Chicago in a proclamation which states that by reason of unlawful obstructions, combinations and assemblages of persons it has become impracticable, to enforce by the ordinary course of proceedings the laws of the United States within the State of Illinois, and then proceeds to warn citizens from taking part in any of these unlawful assemblages. This means that rioting will be ended at once and order restored. Trains are running under guard and the prospect of a speedy resumption of trade is good.

At Cincinnati the conditions are improving and all the roads are running trains, the Cincinnati Southern and the L. & N. doing a fair business. Had there been no dastardly dallying with the devils the strike would have been over a week ago and without bloodshed. This country is not ready to turn itself over to anarchists and rioters, and it ought to show it by pouring hot shot into all such assemblages.

The wires brought us no news of serious outbreaks yesterday and the news was that the excitement at Chicago was subsiding.

The ways and means committee of the House recommended non-concurrence in the Senate amendments to the Wilson bill and also an appointment of a conference committee. Thereupon Speaker Crisp named Wilson, McMillan, Turner, Montgomery, democrats, and Reed, Burrows and Payne, republicans. The republicans protested against haste in the matter and wanted the bill to take its course, but their wishes were not consulted. Let short work be made of it.

Circuit Judge Hall instructed the grand jury at Pineville to indict the saloon keepers there for running in violation of the State local option law as applied to Bell county, although they are operating under license granted by the city council, whose charter gives it the exclusive control of the whisky traffic. This is in direct conflict with Judge Snoddy's decision and shows that judge's like doctors disagree, when as is this case, there is no reason for it.

Debs feels himself "biger than old Grant" ever did. Having demonstrated his absolute power over thousands of deluded fools, he now essayed to tell the president what to do and in language more pointed than polite, demands that he recall his doge of war. He is joined in the demand by Sovereign, who is head of the knights of labor, and is playing second fiddle to Czar Debs. The president is, however, not moved by such protest as that and Gov. Altgeld's, but continues to mass troops that will bring order out of chaos and restore inter State commerce. Mr. Cleveland's spinal column is still in tact and if he doesn't have the insurrection put down in short order it will not be because he is afraid to take the bull by the horns.

One rioter had a soldier's bayonet run clear through his body in a charge at Chicago and died in a few moments. It is the dupe that get killed and wounded. Debs remains in his room at a first-class hotel, far from the smell of powder and the glitter of bayonets. He is the scamp who deserves death but he is smart enough and mean enough to save his carcass by saying he conned against violence. There ought to be a law for hanging such cattle, but unfortunately there is not. A special grand jury has been ordered to investigate the strike though, and he may yet get his partial deserts at the hands of the law.

Mr. CLEVELAND as good as tells the anarchist governor of Illinois that it is best to put an end to mobs first and then talk. His reply to the governor's objection to U. S. soldiers in his State was short and to the point. It was: "While I am still persuaded that I have neither transcended my authority or duty, in the emergency that confronts us, it seems to me that in this hour of danger and public distress, discussion may well give way to active effort on the part of all authority to restore obedience to the law, and to protect life and property."

Almost the last of the great buildings at the World's fair has been laid low by the incendiary's torch. The great Manufactures and Liberal Arts, the Mining, the Electrical and the Agricultural buildings, whose beauty and immensity delighted millions, and which cost \$2,205,000, were burned Thursday night. Two men lost their lives. Incendiaries seem determined to wipe out of existence the beautiful White City, but their object cannot be imagined.

The railroad men of Louisville, in refusing to join the idiotic strike, which has become criminal, show that they are sensible and law abiding citizens. The L. & N., especially, has a better class of employee than any road in this section and they fully merit the additional good opinion in which they have always been held, by their sensible course in the present disturbance.

The court sustained Editor Charley Moore's demurrer to the indictment charging him with blasphemy, and the grand jury will have to take a fresh pull. Meantime, "Charley" continues to saw wood, but those who read the Blue-Grass Blade say that it can not be urged that he is saying nothing.

The Mountain Echo flatly exclaims: "McCreary can and ought to be beaten." We do not reproduce the sentence but show its grammatical construction but in order to inquire if the editor's desire to see the governor beaten, is not governed more by personal than political reasons?

ANOTHER bar has entered the ring. He lives at Hot Springs, N. C., and his claim to fame is based on a dispatch that he sent that a storm had left the streets of that city six feet deep in hail!

HON. M. C. LITTLE, Congressman from the 10th, died Saturday at his home in Winchester. He was a man of many fine and lovable traits, but not a great one.

SIR RONALD BALL, the astronomer, says the sun cannot hold out more than 10,000,000 years longer. Well that's as long as any of us will need it.

## NEWSY NOTES.

The midwinter fair at "Frisco closed Wednesday. Total attendance since the opening, 2,140,154.

For their refusal to disperse the strikers two companies of California militia have been sent home in disgrace, and the Sacramento companies deprived of their arms and uniforms. At many points strikers stopped trains by throwing themselves on the tracks.

The city comptroller of New York, in his annual report, shows that the city government has on its rolls 15,000 salaried employees, and expends \$89,000,000. This is more money and patronage than is dispensed by the State governments of one-half of the United States.

At Bagg's, Wyo., recently, F. H. Moreland, the champion sheep shearer of the world, clipped the fleece from 336 head of sheep in one day of 10 hours, thus beating all previous known records by 24 sheep. At the same place and day Phil Walsh sheared 322 head.

John C. Sanderson, a wealthy citizen of Wooster, O., was seriously hurt by his horse falling with him. His sister, living in the country, was sent for and on the way to see her wounded brother her horse also fell. She received injuries from which she can not recover.

Gov. Altgeld has sent to the president a protest against the calling of United States troops into service in Illinois, and demanding their withdrawal. He attempts to show that the gravity of the situation has been exaggerated, and asserts that the State is ready to maintain peace.

The railroad strike has spread to the Louisville and Nashville system. Switchmen are now out at Nashville, Evansville, Memphis and Birmingham and of officials are making up trains. The Kansas City, Memphis and Birmingham is practically tied up between Birmingham and Memphis. At the latter city an omnibus injunction has been issued.

William Murphy, of St. Louis, celebrated his 28th birthday by filling a large can with powder and setting fire to the fuse attached. The powder did not explode quickly and Murphy went to investigate. While looking into the can the explosion came tearing off his nose, breaking his cheek bones and putting out both of his eyes.

The State officers to be elected this year are four judges of the court of appeals, the new constitution of the State having increased the number of judges from four to seven; and three railroad commissioners, who will be elected in November for the first time. Even representatives in Congress will also be chosen, as well as all county officers.

Mrs. W. J. Lehman, is the right kind of a woman. A striker named Letters tried to prevent her husband, who had long been out of work from taking the place of a striker, and finally attempted to use force. The men grappled, and while they were struggling, Mrs. Lehman jerked her husband's pistol from his pocket and shot Letters through the heart. It happened at Chicago.

The tie-up at Birmingham, Ala., became so serious that Gov. Jones ordered 11 companies of State troops to the scene, the soldiers arriving Sunday night. The Queen and Crescent has not been able to move a freight car since Friday, and the switchmen, firemen and brakemen on the Louisville and Nashville, Kansas City, Memphis and Birmingham and Queen and Crescent are all out except a few negro firemen and brakemen on the Louisville and Nashville.

## DEATH'S DOINGS.

## WOMAN'S WORLD IN PARAGRAPHS.

## What is the Right Bicycle Costume for a Woman?

The bicycle craze for women has struck New York—struck it hard. Women of all ages are learning to ride the wheel. No athletic exercise is at once so fascinating and so exhilarating. At the school where I have been taking lessons there are often more women pupils than men. I am only provoked at myself to think of all I have lost during so many years in not learning sooner. I believe it to be, except swimming, the best physical exercise ever devised for women. But there are difficulties for women to be overcome. The men do not have to encounter, just as there are everywhere else, for that matter. Woman's dress is terribly in her way. I have been trying several kinds of learning to mount, because it would persist in catching in the long skirt. It was so exasperating that I have taken a vow to wear the newly devised bloomer bicycle costume. So many ladies wear the bloomers now that it is becoming a rarity on some of the roads about New York. One is indebted to a New York man, Mr. H. Strugell, a Broadway manufacturer, for the best bicycle suit I have seen. The bloomers trousers are contoured just below the knee by an elastic band. Long garters of the same material as the suit cover the leg from instep to knee. With a shirt waist a jacket is worn, or not, according to the weather, and a close fitting cap completes the outer costume. It is simple, of light weight and convenient. When once the bicycle costume is settled, another question equally serious confronts women. It is unquestioned that a woman's bicycle as at present manufactured is heavy, clumsy and weak. It must weigh half a dozen pounds more than a man's, although woman is physically weaker. It is constructed in defiance of all the principles for combining strength and lightness in machinery. This is because of the notion that it is immediate for women to ride as men do. But that notion is vanishing. The New York Sunday papers tell us, come out recently a man's bicycle exceeding 100 pounds in weight. With the present in place to be for women there is no longer a reason in the way of this. Women will ride with less fatigue. In fact, many women in the vicinity of New York are already riding men's wheels. "And the men all like it and admire it, too," the bicycle teacher tells me. I may say he is a good-looking young man.

Many of the cruel, wicked and profligate actions of the orient concern women yet linger about New York. My western readers will be surprised to learn that some of the immunities of restaurant keepers here have a rule that women unattended by men shall not be served in their restaurants in the evening. There is no reason for it except the innate impulse to tyrannize over what is weak and helpless. Late at one of these immunities a lady accompanied by a woman friend went into the restaurant where she had been in the habit of taking meals for a year. She was known and respected, but it was after dark, and she was refused her dinner because it was the custom at that restaurant to turn ladies out in the street hungry when they had nothing in trousers along with them. The lady might have gone out into the park and invited one of the tramps that swarm on the benches to dine with her and paid for his dinner, and it would have been all right, but refined, delicate ladies alone, not. The New York World, in commenting on the outrage, reminds women of the law requiring restaurant keepers to serve all orderly, well-behaved persons who apply for food. It advises women wherever they are turned out as the lady mentioned to sue the restaurant keeper for heavy damages. There is no shadow of doubt that it could be collected. I hope the master will be brought to the test.

Mrs. Agnes K. Murphy Mulligan is a member of the New York Real Estate Exchange. In spite of her name she is of long American lineage, being descended on one side from a Kilkenny family. She was educated in the New York city public schools. Her father was in the real estate business, and his health failed. The plucky and trained girl took his place. She was married a year ago, but still occupies her desk in the office. Before her marriage, when a very young girl, Mrs. Mulligan negotiated a real estate sale to the amount of \$80,000. It was this sale that won her election to membership in the Real Estate Exchange. She is proving very successful in her chosen occupation.

The Globe-Democrat remarks editorially how it is not pleasant to realize that so many of the active women politicians of Kansas are suffering from nervous prostration. Yes, but this is nothing to the nervous prostration from which many of the active men politicians in Washington and New York are suffering just now.

The women of New Jersey have been voting on school questions for some years, but recently the supreme court of the state advanced backward and pronounced the opinion that women there have no right to vote on school matter or anything else. If it is unconstitutional, however, somehow a long time was required to find it out. Never mind, girls. Just wait a little.

Miss Julia Hinchlins Farwell is principal of the St. Mary's school for girls at Garden City, N. Y. She is making of it the place the girl of the period needs, being thoroughly in harmony with the spirit of the age which calls for the highest development of young women mentally, morally and physically. In order to be a successful teacher one must be thoroughly youthful in spirit herself and remain so always. Miss Farwell, who is yet young in years—so much the better—will always be young in spirit, and so can sympathize with the girls who look about her.

## THE CROWNLESS MARTYR OF THE MARRIAGE RING.

BY E. T. SMITH.

WRITTEN FOR THE INTERIOR JOURNAL.

From his youth up, Mr. Thomas Carter had been a hard worker. Until this particular night, his brain had been an obedient servant, but now it refused to do his bidding. The cotton quotations, which he was trying to read, were jumbles of jargon. Spots, futures, receipts, stock, and shipments rioted through his brain in inextricable confusion.

Putting on his hat, he opened the door leading into his confidential book-keeper's room, and said: "Ferguson, I'm going home, I'm wool-gathered to-night. I'll try a good night's rest, and will look over the cotton reports in the morning."

"I hope you are not going to be sick, sir," the busy book-keeper took time to say, as he anxiously looked up from his write:

Atlanta, Ga., June 30th, 1892.  
To the First National Bank of Atlanta, Ga.

Pay to John Ferguson or order five hundred dollars.

(Signed.) THOMAS CARTER.

Here Ferguson take this and get yourself a decent suit of clothes, then pack your 'duds' and light out. Then I see the tears come in old Ferguson's eyes, and his throat swelling up as he stretches his hands towards me, and says: "But, but, Mr. Carter, —" Then I'll put on that stern look again and say: "There are no buts about it—yes, there is this but. When you spend the amount of that check, if you don't draw on me for a like amount, and if you don't send me a wild flower when you write, I'm going to bury your brains out with a bale of cotton when you get back!"

Mr. Carter was so tickled with the way that he was going to serve Ferguson, he had to sit down and chuckle to himself. To indulge in his pleasant meditations without interruption he closed his eyes, then the fairies knowing the benevolent import of his thoughts came bearing anesthetics from hawthorn and honeysuckle, and gently soothed him to sleep.

(To be continued.)

Then he thought how strong and healthy he was, when a boy. What an appetite, what a digestion he had. No indigestion then, no gnawings of dyspepsia, no waterbrash with its liquid fires, and no 'kinks' in my brain.

"I believe if I could again drink from that old poplar spring, if I could loll around on those moss embossed rocks under the shade of the maples and poplars, and hear the mocking bird singing as it swings on a twig of snowy, hawthorn blossoms; if I could watch through half closed eyes the red bird flashing out a ruby through the emerald leaves, 20 years would be added to my life. My brain would no longer 'jangle harsh out of tune,' but would soon be clear as a bell."

The result of these meditations was that in a week thereafter, Mr. Carter found himself walking down the banks of the brook towards the poplar spring. It was a bright, sunshiny day in May. A perfect sky, a pastelle in pearl and blue, hung over him. The air throbbed with the music of birds and the murmur of bees; and so sweet was the breath of the breeze with blossoming hawthorns and honeysuckles, that each inhalation was a drink of ozone dashed with perfume.

Mr. Carter soon reached the spring. The poplar still spread its protecting shade over it. The rocks were velvety with moss, but the spring itself was clogged with leaves, twigs and other vegetable matter.

"I'll soon remedy that," said Mr. Carter, "I'll give it a good cleaning out, and while the water is getting clear, I'll go down to the old picnic grounds. I hope that will not disappoint me too."

He soon reached the grove. At the lower end of the grove another brook united its waters with the poplar spring brook, and the waters of the two brooks romped and leaped in playful glee over a series of miniature falls. Beeches and elms, oaks and maples shut out, with their emerald canopy, the glare of the sun. Bright butterflies fluttered like winged flowers before him as, admiringly, he walked along. Wild flowers twinkled like stars in their framework of grass. Birds twittered in the tree-tops, or swung their censers of song from hanging vines or swaying limbs, and the zephyrs, loth to leave a scene so fair, crept slowly through the leaves, exhaling a sweet perfume with every sigh.

"My! my!" exclaimed Mr. Carter as he stopped spell-bound, "this is prettier than I was when I was a boy. 'Time's wing in stealing o'er, leaves it lovelier than before.' Why I've gone to quoting poetry. I wonder what Ferguson would think of that. I am getting younger already. A man never gets old until the poetical fever leaves him. Poetry and age don't go together. My! here's a blood root in bloom. Yes, palmate leaf, blossoms regular, both calyx and corolla, stamens numerous with yellow anthers, and white petals. Let's see what's its botanical name. Ah! now I have it. Yes, *sanguinaria canadensis*. It's late blooming though. Ought to bloom in March or April. Cool place here though, I wonder what Ferguson would think if he heard me botanizing? Ferguson must see this place! He must come up here in July and spend a month. He needs color in his cheeks. Poor fellow he has wrestled with cotton so long, that he has become white all over. His head's white, his cheeks are white, and

I shouldn't be surprised if the gray matter in his brain has turned white. Let's see, he has been with me 15 years, and never took a real holiday. Begone to show age too. Getting stoop shoulder-ed, looks thin and droopy. Yes, he's got to come right here, and spend a month. I can see Ferguson now, when I tell him he must take a month's furlough. He will offer a dozen excuses to get out of it. His books are his idols and he is joined to his idols. He will say his books are in bad shape, that his work is behind, that the other clerks will mess up his work so, that he will never be able to straighten out things again. But I'm going to put on a stern look and say: 'Mr. Ferguson, bring those books here. Put them in the safe, lock the door and hand me the keys. Now hand me my check book!' Then old Ferguson will get frightened. He'll think I'm going to discharge him. I'll take my check-book from his trembling fingers, and I'll write:

Last June Dick Crawford brought his 10 months old child suffering from infantile diarrhoea, to

It had been worn in for months, and after through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than a pound. I then sent it to Dr. Chamberlain's Clinic, Cholera and Diarrhoea Remedy. Before one bottle of the 25 cent size had been used, a marked improvement was seen and continued to increase, the child's life was saved by this Remedy. J. T. Marlow, M. D., Tamara, Ill.
